

July 25, 2020

As of yesterday's report, Greenwood County had 20 additional confirmed cases in the county for a total of 1,093 cases confirmed since 21 March. *Remember this is only those which have been confirmed and is for those who were tested a minimum of two days ago. This means there are others who have been tested and are in quarantine awaiting results. Additionally, an individual can be asymptomatic, (contagious but shows no symptoms), and may choose not to be tested.*

As of Monday 20 July, Self Regional Healthcare had conducted 12,420 COVID-19 tests with 1,332 positives. There are 411 pending test results. This equates to a 11.1% positive rate. *This information is for all tests conducted by Self Regional and includes individuals from Greenwood County and other locations.*

The first 696 cases in Greenwood County were reported over 15 days ago, so there are 696 individuals who should have recovered from the virus. Additionally, Greenwood County has had 11 deaths due to the virus. This brings Greenwood County's remaining estimated total of active confirmed cases to 386. *DHEC does not track recovered individuals by county, so this number is an estimate based on the following: Most individuals recover from the virus within this time frame.*

From 11 July until 24 July (2 weeks), Greenwood has had 389 confirmed cases out of a population of 70,811. This equates to an incident rate of 549.3 per 100,000 individuals which is rated as **high** by SCDHEC. (Low = 50 or less; Medium = 51 - 200; High = 201 or more)

SCDHEC reported an additional 1,921 new confirmed cases in the state for a total of 78,298. Also, they reported 46 new confirmed deaths in the state for a total of 1,339. Please click this [link](#) to see the deaths by county. For additional information on underlying conditions or other information in this section, please call DHEC at 1-855- 472- 3432. *SCDHEC has begun providing a number of probable cases and deaths. I will only be providing the confirmed numbers. Once a probable case or death is confirmed, they will add it to their confirmed total and I will report it.*

As of yesterday, SCDHEC reported 8,654 of 13,398 hospital beds were occupied within the state for a 64.6% utilization rate. 1,668 of the 7,998 beds are occupied by individuals who have tested positive or are under investigation for COVID-19. This is 19.3% of the occupied beds.

As of 24 July, Greenwood County has 207 of 264 hospital beds in use which is 78.4% utilization rate. As of 24 July, Self Regional reported 35 COVID-19 patients with 15 in ICU. Of these, 11 patients are on ventilation.

SCDHEC is finding an increased rate of individuals who do not have symptoms and don't know they are infectious as they have expanded testing. This increases the risk of spreading the virus. Over the

past couple of weeks, Greenwood County has seen the number of cases of COVID-19 increase. In some cases, this was the result of individuals not social distancing or wearing masks. It is important we slow the spread of the virus by keeping 6 feet apart, washing our hands, avoiding large gatherings, remaining home when sick and **wearing face coverings** when in public facilities which do not allow for social distancing.
